

TASK 7: Landscape features

Divide into small groups, each with a copy of ONE of the six photographs in Fig. A27 A - F.

1: Study the photograph for your group and identify the principal features that it shows. Record your observations under the following headings:

A: Large scale landforms

B: Small scale landforms

C: Vegetation

D: Evidence for weathering processes that have operated here

E: Possible origins of the landscape that you see.

2: Report back your findings to the other groups.

3: All but one of the photographs has a common factor. Name this and indicate which photograph is the odd one out and why.

Figure A28: Characteristics of Jordanian deserts

Photo A: Umm Useykhim

Photo B: Landscape near Al-Hazim

Figure A28: Characteristics of Jordanian deserts (continued)

Photo C: Al-Dahek

Photo D: Near Qasr Amra

Figure A28: Characteristics of Jordanian deserts (continued)

Photo E: In Wadi Rum, South Jordan

Photo F: In Wadi Rum, South Jordan
